

About Me

I am a 2nd-year AI & Data Science undergraduate with a strong interest in Python, machine learning, and data analysis. I enjoy working with real datasets, building simple ML models, and improving my skills through academic and personal projects. I am actively seeking a Data Science internship where I can apply my knowledge, gain industry experience, and grow as a future Junior Data Scientist.

LANGUAGE

- Tamil
- English
- Sinhala

SKILLS

- Python
- Machine Learning
- Data Analysis
- NumPy
- Pandas
- TensorFlow / Keras
- HTML / CSS / JavaScript

MOHAMED AHSHAAN

Aspiring Data Scientist & Machine Learning Enthusiast

EDUCATION

- **BSc (Hons) Artificial Intelligence & Data Science - Present**
Robert Gordon University (RGU), UK
In partnership with Informatics Institute of Technology, Colombo
- **IIT Foundation Programme - Completed in 2024**
Distinction Pass
Informatics Institute of Technology (IIT), Colombo
- **Km/Km Al-Ashraq National School, Nintavur**
G.C.E. Advanced Level - 2023(2024)
G.C.E. Ordinary Level - 2020(2021)

PROJECT EXPERIENCE

- **MRI vs Non-MRI Image Classifier**
Developed a CNN model using Python and TensorFlow/Keras to classify MRI and non-MRI brain images with preprocessing, training, and evaluation.
- **Organic Spices Website**
Created a responsive website for an organic spices brand using HTML, CSS, and JavaScript.
View Project - organicspices.github.io
- **ICT Classes Website**
Designed a clean and user-friendly website for ICT classes using HTML, CSS, and JavaScript.
